Picking for Load-Out Operation

A screenshot of a web browser displaying the 'Create Movable Unit' form. The form has a title bar 'Create Movable Unit'. Below it, there is a dropdown menu for 'Movable Unit Type *' with 'Pallet' selected. To the right of this are three input fields: 'Length (in)' with value '48', 'Width (in)' with value '40', and 'Height (in)' with value '50'. Below these is a text input field for 'Movable Unit Label *' containing the text 'System Assigned'. At the bottom of the form are two buttons: 'Cancel' (orange) and 'Print Label' (blue). Below the form, there is a list of items: 'abc1 ▶ 30 Each', 'TEST123 ▶ 70 Each', '1E71 ▶ 15162', 'TEST789 ▶ 110 Each', and 'Receiving Staging Area ▶ 21832'. At the very bottom, it says '1 of 1' with a right arrow.

A screenshot of the same 'Create Movable Unit' form, but the 'Movable Unit Label *' field now contains the alphanumeric code 'P100000078'. The 'Print Label' button is still present. The rest of the form and the list of items below are identical to the previous screenshot.

Picking for Load-Out Operation

The image shows a mobile application interface for a warehouse picking system. The title bar at the top reads 'PICK FOR LOAD-OUT'. Below this, the section is titled 'Bar Harbor'. The main content area displays a form with the following fields and values:

| | |
|----------------|---------------|
| Customer | Test Customer |
| Transaction ID | 153076 |
| Customer | Test Customer |
| Location | PP9 |
| SKU Count | 3 |
| Total Quantity | 210 |
| Status | Ready To Load |

Below the form, there are two buttons: 'Next Job' (orange) and 'Start Load' (teal). Below these buttons is the word 'or' and a text input field labeled 'Transaction ID or Pick Job ID'.

When completed,
the system will
prompt you for
the next operation
Start Load
