

3PL P&L SUITE

Our P&L Integration software module allows you to integrate overhead costs such as insurance, building expenses, equipment rentals, supplies usage, and personnel salaries with actual labor transactions performed in the warehouse.

THE 3PL P&L SUITE IS BENEFICIAL ACROSS DEPARTMENTS

For Finance Teams:

- No more manual spreadsheets or guesswork.
- Comply with standards for cost allocation.

For Operations Managers:

- Tie labor and equipment costs directly to client activities.
- Optimize workflows to reduce overhead waste.

For Executives:

- Full visibility into the true cost of doing business.
- Confidently bid on contracts with accurate pricing.
